To Whom It May Concern:

Walker and Associates, Inc., the premier distributor of leading edge network products for the telecommunications industry, has been using ABC Logistics to audit any pays its freight bills since April 2008. From the very beginning, they have been a true business partner. They assisted us in notifying our carriers of this change, which led to a smooth transition for everyone involved. The staff of ABC is always available to assist with any problems that might arise. Their freight audit and payment software allows for the prompt payment of our freight bills, and provides access to the information we require.

There was also a labor cost reduction. This was also an important factor in electing a freight audit and payment service. We are also impressed with the quality of ABC's work and the knowledge of their staff. We can highly recommend them.

Sincerely,

Michael Rinehardt
